Carefully Crafted Timber

# Rivercove Home – Hamilton, New Zealand

Rivercove Home is by the team at award-winning builders, Urban Homes.

## Project & Product Overview

Set in a new Waikato subdivision this home creates the perfect mix between privacy and beauty.

With a modern, Scandinavian style façade the Rivercove Home cleverly combines Vulcan Cladding in Sioo:x finish with Vulcan Screening in Ebony for a sophisticated road side frontage.

A crafted garage door is clad in grain-matched Vulcan Cladding, for a sleek and subtle appearance.

The sophistication extends in to the home's interior where dark and moody timbers meet natural stone.

A curved feature wall using Vulcan Screening in Ebony creates a masterfully snug media room – allowing the home owner to escape from the world.

Carefully constructed by the team at award-winning builders, Urban Homes, this home has been painstakingly detailed by Urban craftsmen with meticulous attention to detail.
